

REACH Declaration of Compliance

Poole, 03.03.2026

On June 1st 2007 the Regulation (EC) No. 1907/2006 concerning Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) came into force. Multi Circuit Boards Ltd. is among the „downstream users“ according to REACH. You procure exclusively non-chemical articles from us which are not intended to release any substance under normal and reasonably foreseeable conditions of use. Therefore, Multi Circuit Boards Ltd. is not subject to obligational registration nor is it bound to the creation of safety data sheets.

Based on the information provided to us by our material suppliers, we assure you that all printed circuit boards and products supplied by Multi Circuit Boards Ltd. fully comply with the requirements of the REACH Regulation (EC) No. 1907/2006. In particular, they do not contain any substances that a) are listed in the REACH Candidate List (SVHC) and exceed a concentration of 0.1 per cent by weight, b) are listed in REACH Annex XIV (Authorisation), or c) fall under the restrictions of REACH Annex XVII.

Exception: If you have explicitly ordered the printed circuit board surface HAL SnPB, one of the substances currently listed in REACH-Annex XIV (lead, CAS 7439-92-1) is contained in the printed circuit boards delivered to you with a content of more than 0.1%.

In addition, we will promptly inform you in accordance with REACH - Article 33, if ingredients of our products are classified (from a level of > 0.1% by mass) as a particular concern of the European Chemicals Agency (ECHA). As things stand, however, we do not expect that this will happen.

We are also in close contact with our suppliers, and are very attentive to the correct implementation of the REACH regulations which may require registration of the relevant substances in REACH.

Multi Circuit Boards Ltd. pays special attention to long-term security and continuity of supply.

Multi Circuit Boards Ltd.

P. Horstmann, Director
